And to keep up with the pace of it, it is necessary [New DP-203 Exam Questions](#) to improve ourselves with necessary certificates such SAP certification.

NEW QUESTION: 1

ユーザーがPIOPSボリュームを作成しています。

PIOPSとボリュームサイズの間でユーザーが設定する必要がある最大の比率はどれくらいですか？

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

Provisioned IOPS volumes are designed to meet the needs of I/O-intensive workloads, particularly database workloads that are sensitive to storage performance and consistency in random access I/O throughput. A provisioned IOPS volume can range in size from 10 GB to 1 TB and the user can provision up to 4000 IOPS per volume.

The ratio of IOPS provisioned to the volume size requested can be a maximum of 30; for example, a volume with 3000 IOPS must be at least 100 GB.
