With 300-810 demo questions, you will know if it deserve to being choose or not, With our proved data from our loyal customers that the pass rate of our 300-810 practice engine is as high as 99% to 100%.

Our 300-810 learning reference files are so scientific and reasonable that you can buy them safely, For passing the 300-810 exam you must have to take help from valuable 300-810 exam valid dumps available at ExamsLead.

NEW QUESTION: 1
The installation of WebSphere Application Server did not complete successfully, and a system administrator needs to troubleshoot the installation.
What can the administrator do to identify the cause of the installation failure?
A. Run the installvercommand with the appropriate command line options.
B. Check the files under the logsdirectory of IBM Installation Manager installation directory.
C. Check the files under the Agent data location of IBM Installation Manager.
D. Check the log.txtunder <WebSphere Application Server install directory><log directory>.
Answer: B
Explanation:
Explanation/Reference:
Explanation:
Installation Manager creates log files that you can use to troubleshoot any installation problems. Consider verifying the log files after any installation to ensure that everything in that process went successfully.
To examine the logs manually, locate the Installation Manager logs directory. The default location for this directory varies according to the operating system:
Windows: C:ProgramDataIBMInstallation Managerlogs
UNIX: /var/ibm/InstallationManager/logs
Reference: WebSphere Application Server V8.5 Administration and Configuration Guide for the Full Profile (July 2013), page 45
